

MD 195 (Carroll Avenue) Bridge Rehabilitation Project Over Sligo Creek in Takoma Park

SLIGO CREEK PARKWAY DETOUR STARTS 3/28

SHA TEMPORARILY CLOSES SLIGO CREEK PARKWAY IN TAKOMA PARK FOR STEEL BEAM DELIVERIES

***Daytime Closures Start Monday Morning, March 28th;
Traffic Will Follow Signed Detour***

As part of the Carroll Avenue bridge reconstruction project, the Maryland Department of Transportation's (MDOT) State Highway Administration (SHA) will temporarily close and detour traffic on a one-third mile section of Sligo Creek Parkway beginning Monday morning, March 28 at 9 a.m.

Crews will reopen the roadway by 3 p.m. The closures, between Old Carroll Avenue and Maple Avenue, will continue each weekday for approximately two weeks. The road closures and detours are necessary for the delivery of 70 steel beams for the \$10.6 million MD 195 (Carroll Avenue) bridge over Sligo Creek reconstruction project in Takoma Park.

To date, crews have relocated utilities and constructed a temporary bridge for ingress and egress of construction equipment inside the work zone. Weather and progress permitting, the entire project should be complete late fall 2017.

TEMPORARY LANE CLOSURES/DETOUR ROUTE

To expedite safe delivery of the steel beams for work crews and the traveling public, SHA will close Sligo Creek Parkway weekdays and detour traffic using Old Carroll Avenue, MD 195, Lincoln Avenue and Maple Avenue. Weather and progress permitting, the steel deliveries should be complete by early April.

QUESTIONS

The following SHA representatives are available to answer questions regarding this MD 195 project:

- Mr. Usman Khan, SHA District 3 Project Engineer, ukhan@sha.state.md.us, 215-776-4606
- Mr. Kevin Oberheim, SHA District 3 Area Engineer, koberheim@sha.state.md.us, 301-513-7372
- Mr. Christopher Bishop, SHA District 3 Community Liaison, cbishop@sha.state.md.us, 301-513-7405
